

MOBIN JIAODDIN SHAIKH

Pharmaceutical Machine Technician

+91 9823339066 • mobinshaikh266@gmail.com • Mumbai Maharashtra

PROFESSIONAL SUMMARY

Pharmaceutical machine technician with 30 years in the industry and 25+ years operating production equipment across granulation, blending, tablet compression, capsule filling, and cartoning. Skilled in machine setup, changeovers, troubleshooting, and in-process quality checks, with strong command of GMP/cGMP, SOP compliance, and data-integrity (ALCOA+) standards. Has guided and supported 500+ officers, operators, and workers on the production floor.

CORE EXPERTISE

Machine Setup & Changeover • Granulation & Blending • Tablet Compression • Capsule Filling • Cartoning • Troubleshooting • GMP/cGMP & SOP Compliance • BMR-Based Manufacturing • ALCOA+ & Data Integrity • In-Process Quality Checks • Team Supervision

PROFESSIONAL EXPERIENCE

Senior Machine Technician — VS International Pvt. Ltd. [Present]

August 2025 - Present

- Operate pharmaceutical manufacturing equipment and perform granulation per Batch Manufacturing Records (BMRs) and approved procedures.
- Carry out machine setup and changeover activities; monitor production and troubleshoot operational issues.
- Maintain full compliance with SOPs, GMP/cGMP, hygiene, safety, and data-integrity requirements.

Senior Machine Technician — Ipca Laboratories Ltd. [11 Years]

August 2014 - August 2025

- Managed machine operations across granulation, blending, compression, and capsule filling, including setup, changeover, and routine troubleshooting.
- Performed in-process quality checks and maintained documentation, hygiene, and data-integrity standards per BMR/SOP requirements.
- Guided and supported production personnel in machine operation and manufacturing activities.

Skilled Operator — Lyka Labs Ltd. [18 Years]

September 1996 - August 2014

- Operated pharmaceutical manufacturing machinery and supported batch production per BMR and SOP requirements.
- Monitored machine performance and product quality; followed hygiene, safety, and line-clearance procedures.
- Built extensive hands-on foundation in pharmaceutical machine operation and production environments.

MACHINE & PROCESS EXPERTISE

Granulation & Drying: Sionazer Mixer Granulator, RMG, Fluid Bed Dryer (FBD), Fluid Bed Vertical Processor

Tablet Compression: CTX32 Compression Machine, rotary compression equipment

Capsule Filling: SA9, AF90 Capsule Filling Machines

Other: Multi Mill, Blending, Cartoning

QUALITY, GMP & IN-PROCESS CHECKS

- 5 years GMP and 15+ years cGMP experience in regulated manufacturing environments (as reported).
- In-process checks: tablet thickness, hardness, friability, disintegration time, physical appearance, capping, double impression, sticking.
- Cleaning experience: Type A (batch-to-batch), Type B (product-to-product), Type C (shift-end). Primarily works with physical BMRs and logbooks; familiar with SCM/ERP systems.

KEY ACHIEVEMENT

Identified black/foreign particles in raw materials before manufacturing, preventing contaminated material from entering production — averting an estimated loss of Rs. 2 crore and protecting product quality.

LEADERSHIP & RECOGNITION

- Guided and supported 500+ officers, operators, and workers over the course of his career.
- Employee of the Year; appreciation letter from a pharmaceutical equipment manufacturer; one professional promotion.
- Completed 100+ training programs, including CPR and firefighting/safety training.

EDUCATION

Bachelor of Science (B.Sc.) — North Maharashtra University, 1994
